## AMERICAN AKITA CLUB CZ SPECIALTY SHOW, OCTOBER 2014

The Czech Republic had the honour to host the FCI European Dog Show 2014 and so almost 15 000 dogs in total came to Brno at the end of October. All these dogs were judged by 153 judges from 26 countries.

There were 112 entries in the American Akita breed, which is very good number for Eurodogshow and so far is the biggest entry for the Czech Republic for sure.

Only 15 American Akitas entered were bred in the Czech Republic, the most of entries were from

Russian speaking countries, but dogs from Hungary, Serbia,

Croatia, Norway, Poland, Slovakia, Spain and others were present also.

EDS BOS - RESTYL-ING BRIGHT CRYSTAL

EDS BOB - RESTYL-ING PARADISE SANDER

The judge was Mrs. Hana BLATONOVA (CZ) who awarded the Best of Breed title to a beautiful 4 year old Russian male RESTYL-ING PARADISE SANDER.

Breed clubs were given the opportunity to organise a Specialty Show at the occasion of Eurodogshow and so the American Akita

Club CZ (AAK CZ) took this opportunity. AAK CZ is rather a small club with some +/- 40 members and of course the size of the club influences its budget and financial capabilities. Despite modest budgetary frame we try to invite a foreign judge from a country where the breed has much longer tradition as we strongly believe it's the best way to make the show interesting and also a great occasion for Czech breeders, owners and all people around the breed to learn.

We had Mr. Steve LISKER and his wife Mrs. Miriam LISKER from the U.S. at our Club Show in 2011, in August 2014 it was Mrs. Mavis SYKES (UK) who judged our Club Show and the Specialty Show in October 2014 was judged by a breed specialist

BEST BABY - ECLIPSE OF THE SUN ANGEL IN FUR & EVERLASTING LOVE ANGEL IN FUR

Mrs. Meg PURNELL-CARPENTER (UK), who used to breed American Akitas under her affix OVERHILL'S.

We would like to maintain this trend in the future as well and we hope to welcome also more exhibitors from other countries at our Club Shows and Specialties. Let's have a look at a brief summary from the Specialty Show in October:
